

## **STEINMEYER MFP100 BV**

**Full-Automatic Inspection system  
100 mm measuring range**

**Fully automatic and cost effective Fully automatic measuring station for testing dial gages, dial comparators, lever-type test indicators and incremental and inductive probes, 100 mm measuring range**

**Fewer rejected dial gages and production parts thanks to objective recognition of pointer position by matrix camera and intelligent image processing software**

**Fully automatic measurement cuts personnel costs since it reduces dial gage calibration times by 75%**

**Strictly follows the Abbe comparator principle for achieving maximum measuring accuracy**

**Remarkable ease of operation**

**Software license DIALTEST satisfies individual needs through integration of national and international standards; works standards can be drawn up with ease**

**Measuring range: 0 - 100 mm (0 - 4 inch)**

**Resolution: 0.0001 mm**

**Error limits:  $0.1 + L/100 \mu\text{m}$  (L in mm)**
